

Seesaw for Schools

# Student-Driven Digital Portfolios for K-12

Seesaw for Schools brings the power of Seesaw to all the students, teachers and families in your school or district.

In a survey of all administrators using Seesaw for Schools:

## 93%

of administrators report that Seesaw helps their school:

Increase parent engagement

Demonstrate student growth and progress

Effectively use technology

## 95%

of administrators report that Seesaw develops 21st century skills:

Communication and collaboration

Creative thinking and problem solving

Digital literacy and citizenship

### See Student Progress Year Over Year

With Seesaw for Schools, portfolios follow students for their entire career at your school. Students can demonstrate progress over time and build a complete record of learning.

### Real-time Insights Into Schoolwide Learning

Seesaw for Schools gives you an instant overview of what students are learning across your school, progress towards standards and data to measure your strategic objectives.

### Centralized Setup and Management

Seamlessly set up Seesaw school or district wide, saving teachers time. Seesaw for Schools gives your technology team centralized administration of all student and teacher accounts.

Seesaw for Schools works on any device, including iPad and Chromebooks, and with any setup – shared or 1:1.

# Hear What Administrators Are Saying

## Better Understanding Individual Students

“I don’t say this lightly...Seesaw has been an absolute game-changer for teachers. Seesaw is a streamlined way for kids to demonstrate their thinking and understanding in ways that teachers usually don’t see.”

Eric LeMoine, Innovation Strategist  
Beaverton School District, Oregon

## Better Management with the Admin Dashboard

“Being able to access all the schools in the Division has been a massive benefit [of Seesaw for Schools]. We could see who the prolific posters were...as well as parent engagement in these areas. It also indicated where help might be needed in encouraging schools or classes to get started with an assessment process using Seesaw as a supporting tool.”

Keith Strachan, Learning Technologies Support  
Winnepeg School Division, Manitoba

## Increasing Parent Engagement in Learning

“Seesaw has provided greater transparency into what is happening in our classrooms. Seesaw helps conversations happen. And it gives our parents pride about what their child is learning. Parents carry that around, they can whip out their Seesaw app and show it off to their friends. They love it.”

Jeff Horwitz, Associate Head of School  
Chesterfield Day School, Missouri

**92%** of teachers report that their students are more engaged in learning and take more ownership of their work because of Seesaw.
